PROGRAM CONTENT

What is leadership versus management?

What are my inherent strengths as a leader and areas for improvement?

How do I build trust within my team and across my organization?

How do I leverage emotional intelligence to build stronger working relationship?

How can I best give and receive feedback?

How do I effectively delegate?

How do I help my team be the best possible team they can be?

How am I an effective coach and role model?

How do I have courageous conversations with the people I lead?

How can I help build our desired culture within our team and organization?

KEY QUESTION

I've attended the Women's Leadership Development Program. Is this program right for me?

THE BEST PART

Having fun
while learning
with your peers
in the industry!

THANK YOU!
